

Fifth Annual Short Course In Computational Biophotonics

24 – 28 July 2017

Where: University of California, Irvine
When: 24 – 28 July 2017
Cost: \$800 - \$2000
Contact: Richard Diaz
(rdiaz@uci.edu)

More Information
<https://tinyurl.com/mvebx2v>

- Biomedical themes include:
 - Biological Microscopy
 - Optical Dosimetry for Phototherapy
 - Wide-Field Spectroscopy and Imaging
 - Physiological Monitoring
- Recognized Expert course lecturers
- Hands-on computational laboratories
- Biomedical technology demonstrations
- Moderated discussions
- Topics include:
 - Electromagnetic Wave Propagation
 - Radiative Transport
 - Monte Carlo Methods
 - Diffuse Optics
- Open to students, university postdocs, faculty and industry
